

# Rules TO USE A ROLLER IN THE CORRECT WAY

## New roller:

1. Remove the plastic cover.

2. Soak the roller with a lot of water.

3. Drain the water from the roller supporting it over the wall and make it spin with a fast and strong movement. After that, the roller will be dry and spongy.

4. Introduce the roller into the paint and start to apply it.

## When you finish:

1. Clean it meticulously as soon as possible, removing all the paint until the water is clean.

2. If it is not possible to clean it straightaway, immerse it on water or paint.

3. Once cleaned, drain the water from the roller supporting it over the wall and make it spin with a fast and strong movement until it gets dry and spongy as new.

4. Another possibility is to introduce the roller in a plastic bag, the roller will be vacuum-packed.
